

***Please call to discuss indoor route setting options, our team will visit your facility and review and assess the best way wording in offering your climbing clients a broad selection of individually crafted sport climbs. This will offer your facility and customers a whole cross section of challenging beginner to expert competition standard of routes, to push even the most talented climbers in the UK.***

*Full employers and civil liability insurance cover is provided for our wall technicians whilst on your premises to cover them safely whilst at work. Full risk assessments are conducted on site at the time of the visit with written H&S documentation in place through ARU LTD.*

*Our wall technicians have a combined climbing history of experiences that span 35 years of hard competitive route climbing, through BICC, NBC, BRYCC, World Cup, European Youth Cup and International standards.*

*Please email or telephone our team for an onsite inspection and wall quote for the best high quality and valued service available in this industry sector.*

***We aim to: set the best routes possible to meet your clients needs.***
